TO : DIRECTOR, FBI
(ATTN: FBI LABORATORY,
RADIO ENGINEERING SECTION)
FROM : SAC, BOSTON (66-1292)
SUBJECT: TECHNICAL EQUIPMENT
BOSTON OFFICE

DATE: 4/23/74

Security Survey

Re Boston telephone call to Mr. WILBUR STEVENS 4/23/74.

In connection with a security survey of the Boston Office the Laboratory is requested to furnish Boston with a key telephone analyzer, such as the Mason security device.

Instant equipment will be utilized by the Boston Office for a security check of the space occupied by the Department of Justice, Strike Force, at Boston, and of the newly installed telephone system in the Boston Office.

Honorable Sam J. Ervin, Jr.
Chairman
Committee on Government Operations
United States Senate
Washington, D. C. 20510

Dear Mr. Chairman:

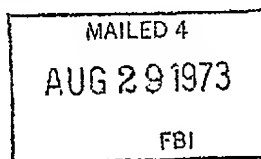

This is in response to your letter of August 2, 1973,
requesting information relating to FBI operations in the
United States Court House in Gainesville, Florida, on
July 31, 1973.

To determine whether FBI Agents had wire tapped or
were attempting to wire tap the telephones of defendants'
counsel in the case of United States v. Briggs, or that
these same Agents had overheard or were attempting to overhear
conversations of defense counsel, District Judge Winston E.
Arnow conducted a prompt evidentiary hearing at the conclusion
of which he made the following ruling:

"In connection with the hearing I am not going to
permit or require any argument. The matter is clear to me
that there is no basis here for belief that there has been
electronic surveillance on the part of anyone connected with
this case. Certainly what has been brought forth here tonight
establishes no basis for it on the part of the defendants and
in my judgment what has been brought forth in evidence here
by defendants establishes no basis for belief that there has been
any such in connection with these defendants' telephones.
Without requiring, or as I say permitting, any argument, that
is my holding, that is my ruling and that is the decision.
This hearing is adjourned."

Honorable Sam J. Ervin, Jr.

I am satisfied that there has been no invasion of the privacy of defendants or their counsel in this case, and no misconduct on the part of the FBI Agents involved.

I can assure you that I will continue to take whatever steps necessary to insure against abuses of discretion or authority by FBI Agents, and am indeed proud of the record of the FBI in this regard.

Sincerely yours,

C. M. Kelley
Clarence M. Kelley
Director

NOTE:

This refers to the incident involving two Agents of our Jacksonville Office who were discovered by the defense in this case on 7/31/73 in the process of checking the security of the telephone lines in our Gainesville Resident Agency. At the time Senator Ervin's letter was received this matter was in the process of being adjudicated in an evidentiary hearing. Because this case is pending before the U. S. District Court in Gainesville, we referred Senator Ervin's letter to the Department for appropriate reply. By routing slip from [redacted] of the Department, we received draft copies of replies to the Senator about which [redacted] commented that the Director had agreed with Attorney General to reply in this fashion.

Reference is made to a memorandum R. A. Miller to Mr. White dated 7/9/73, concerning preliminary physical checks of the above space.

To date preliminary checks of telephone instruments and R. F. surveys have been completed and no evidence of surreptitious listening devices was detected.

During the weekend of 7/20-22/73 the Telephone Company began to convert the existing telephone service to a switchboard system.

Additional telephone checks, R. F. surveys and physical checks will be conducted upon completion of this work.

Security Survey

Reference is made to a memorandum W. W. Bradley to Mr. Conrad dated 6/15/73 concerning a preliminary physical check of all telephone instruments installed in the above space at that time.

On 6/19/73, Laboratory personnel conducted a preliminary physical check of additional telephone instruments installed since 6/15/73. No evidence of tampering was detected in a physical examination of these additional telephone instruments in place at this time.

Laboratory personnel will continue to follow to completion all modifications to this space and at that time will immediately institute additional security checks of this space.

W. H. Joy, Chief, General Services, Department of Justice, who is arranging the space for the special Cox staff, advised that Mr. Vorenberg wanted to have a statement from the FBI to the effect that the space at the above premises is as secure as FBI space in the Washington area.

Mr. Joy was advised that the Bureau could make no statement as to the security of the space as long as the space is still under modification and construction, but that upon completion of the modification work currently in progress, the Bureau would complete its survey and would consider at that time the nature of any statement which can properly be made.

We are in contact with the progress of the modification work on a daily basis and will submit a report as soon as possible after the physical modifications which Mr. Joy has arranged for have been completed.

Reference is made to memorandum W. W. Bradley to Mr. Conrad dated 6/4/73, concerning a meeting with Departmental and Special Watergate Committee personnel regarding security of above space.

On 6/6/73, Laboratory personnel visited this space in connection with the status of security measures being implemented, and completion of telephone service. On 6/7/73, this space was again visited by Laboratory personnel and at this time a discussion was held with [redacted] assistant to Wynn H. Joy, Chief of General Services for the Department of Justice, regarding expected completion of all renovation, security measures, and telephone services. It was explained to [redacted] that it would be inadvisable at this time to endeavor to perform a security survey of this suite of offices, inasmuch as all security measures had not been completed as well as the telephone service. [redacted] was in complete agreement and stated he would advise Mr. Joy of this.

Laboratory personnel will follow this activity at 1425 K Street until completion and at that time will conduct a complete security survey of this suite of offices.

Pursuant to request of [redacted] Director's Office, representatives of the Laboratory met on the afternoon of 6/1/73, with Departmental and Special Watergate Committee personnel concerning security of above space. In attendance at the meeting were Assistant Director I. W. Conrad and SA's [redacted] and [redacted] of the Laboratory; William H. O'Donoghue, Director, Office of Administrative Services and Wynn H. Joy, Chief, General Services, of Department of Justice; and Messrs. [redacted] and [redacted] of the Special Watergate Committee.

Mr. Vorenberg indicated a high degree of security will be needed and asked if 100% security could be assured. After discussion it was agreed this, for many reasons, could not realistically be achieved. Mr. Vorenberg stated that security such as afforded FBI space in the Justice Building would suffice. Mr. Conrad expressed desire of FBI to be of all assistance possible, but pointed out the FBI's participation was in the area of examining for security weaknesses and suggesting corrective steps which might be taken.

Mr. Joy stated that recommended security measures are being implemented on a crash basis and that it is hoped space will be available for occupancy by Wednesday, June 6. Mr. Vorenberg stated he would request the FBI to make a microphone and telephone security survey of the above space prior to occupancy, probably on the afternoon of Tuesday, June 5.

By letter to the Director dated 9-8-71, Mr. Harry C. de Venoge, (former Special Agent), Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone survey of the Secretary's office and those of Under Secretary, James T. Lynn, and Assistant Secretary, Harold B. Scott.

Contact with Mr. de Venoge was made promptly, and in accordance with schedules provided by him, this survey was made at the earliest time the various offices became available. This survey has now been completed. No evidence of eavesdropping devices or tampering of the telephone service was observed at the time of this check. Attached is a suggested letter to Mr. de Venoge which advises of the results of this security survey.

RECOMMENDATION:

That the attached letter to Mr. de Venoge, reporting the results of the microphone and telephone survey of the office of Secretary Maurice H. Stans, Under Secretary James T. Lynn, and Assistant Secretary Harold B. Scott be approved.

Reference is made to a telephonic inquiry on 12-6-71, by Congressman Frank T. Bow of Assistant to the Director J. P. Mohr regarding a security survey of his two offices, (Suite 2182) Rayburn Building and (Room H323) in the Capitol Building. The Congressman requested that arrangements for this survey be made with his administrative assistant [redacted] on January 3, 1972.

Pursuant to arrangements made with [redacted] on 1-13-72, FBI Laboratory personnel conducted a microphone and telephone security survey of Congressman Bow's Rayburn Building office (Suite 2182) and his Capitol Building office (Room H323). The microphone survey was limited to those places in which microphones would most likely be concealed. This survey included all telephone instruments and related equipment within the confines of the offices.

No evidence of eavesdropping or tampering with the telephone system was observed at the time the two offices were checked.

RECOMMENDATION:

That the attached letter to Congressman Frank T. Bow, advising him of the result of this security survey of his two offices, be approved.

FROM : N. P. CALLAHAN

SUBJECT: REQUEST FOR SECURITY SURVEYS
ROOM H-310, CAPITOL BUILDING

While discussing other matters with [] he indicated the Chairman would appreciate it if the Director would approve Bureau representatives conducting a security-type survey for clandestine listening devices as has been done in the past years. He stated that the subcommittee will commence hearings in the next couple of weeks and if it would be convenient any day this week would perhaps be best to accomplish this.

b6
b7C

I have checked with the Laboratory Division and they advised that personnel to conduct such a survey would be available on Wednesday, January 26, 1972, if this would be convenient for the subcommittee staff.

This is the hearing room in which the Director will appear in connection with our 1973 appropriation request and the tentative schedule calls for his appearance on Thursday, March 2, 1972. The Director in past years has approved this type of survey being made.

RECOMMENDATION:

That if the Director approves, [] be informed that the requested survey will be conducted on Wednesday, January 26, 1972, if this is satisfactory with him.

SUBJECT: SECURITY SURVEY AND COUNTERMEASURES
FOR RESIDENCE TELEPHONES OF
SECRETARY OF AGRICULTURE,
DR. EARL L. BUTZ

*Security of Telephone
Service*

By letter to the Director dated 2/4/72, Nathaniel E. Kossack, (Inspector General of the Department of Agriculture (former Special Agent), advised that Dr. Butz is presently residing at Apartment [REDACTED]

[REDACTED] He stated that it would be most helpful if Bureau personnel could conduct a security check of the telephone service at the Secretary's residence and install countermeasure devices in the telephones where appropriate, (to prevent them being used as microphones to pick up room conversation).

With the Director's approval, Bureau personnel have previously made residence telephone security surveys and countermeasure installations for various Secretaries of Agriculture, the last survey having been made for Secretary Hardin in February, 1971. It is suggested that the Bureau may wish to comply with the present request.

ACTION:

If approved, Bureau personnel will make the necessary arrangements with the Inspector General's office at the Department of Agriculture to do the telephone security work at Secretary Butz's residence.

SUBJECT: SECURITY SURVEY AND COUNTERMEASURES
FOR RESIDENCE TELEPHONES OF
SECRETARY OF AGRICULTURE,
DR. EARL L. BUTZ

Reference is made to my 2/9/72²²³ memorandum to you reporting a letter to the Director dated 2/4/72, from Nathaniel E. Kossack, Inspector General of the Department of Agriculture (former Special Agent) in which the latter requested a security survey by Bureau personnel of the telephone service in the residence of Secretary Butz in Washington, D. C. The Director approved.

Through arrangements made with Mr. Fred Hallford (former SAC), Assistant Inspector General in Mr. Kossack's office, personnel of the FBI Laboratory conducted the requested survey on 2/18/72 and 2/22/72. No evidence of eavesdropping or tampering with the telephone service was observed at the time of this check.

It should be noted that referenced letter from Inspector General Nathaniel E. Kossack, requested countermeasure devices be installed as appropriate. Mr. Hallford was advised orally on 2/22/72, that this was not done inasmuch as Secretary Butz is using the residence as temporary quarters, however, when the Secretary establishes a permanent residence in the Washington area, FBI personnel will be available to make the countermeasure installations as appropriate.

RECOMMENDATION:

That the attached letter be approved to Nathaniel E. Kossack, Inspector General, Department of Agriculture, reporting completion of the residence security survey for Secretary of Agriculture, Dr. Earl L. Butz.

SUBJECT: ~~SECURITY SURVEY~~
OFFICE OF SECRETARY OF COMMERCE
PETER G. PETERSON

Telephone Security Check 574

By letter to the Director dated 3/15/72, Mr. Harry C. de Venoge, (former Special Agent), Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone survey of seven offices in the Commerce Department including the Office of the Secretary, Peter G. Peterson.

Contact with Mr. de Venoge was made and the security survey was completed on 3/22/72, in accordance with schedules provided by him. No evidence of eavesdropping devices or tampering of the telephone service was observed at the time of this check. Attached is a suggested letter to Mr. de Venoge which advises of the results of this security survey.

RECOMMENDATION:

That the attached letter to Mr. ^{de}Venoge reporting the results of the microphone and telephone survey of seven offices in the Department of Commerce, including the Office of the Secretary, Peter G. Peterson, be approved.

^{51A} Reference is made to M. A. Jones memorandum to Mr. Bishop on 4/10/72, in which it was reported that [redacted] of Senator McClellan's staff had inquired whether the FBI would conduct a telephone security survey in the Senator's suite of offices in the Senate Office Building and in his office in the Federal Office Building in Little Rock, Arkansas. The Director approved.

On 4/12/72, personnel of the FBI Laboratory completed a telephone security survey of Senator McClellan's office suite in the Senate Office Building, and technically-trained Agents of the Little Rock Office completed a telephone security survey of the Senator's office in the Federal Building at Little Rock, Arkansas. No evidence of any irregularities was observed at the time of these surveys.

RECOMMENDATION:

^{51A} That the attached letter to Senator McClellan, reporting results of a telephone security survey of his offices in the Senate Office Building and Little Rock Federal Building on 4/12/72, be approved.

Honorable John L. McClellan
United States Senate
Washington, D. C.

My dear Senator:

In keeping with the telephonic request from your office on April 10, 1972, a security survey of your telephone facilities at the Senate Office Building, and the Federal Building in Little Rock, Arkansas, has been made by Special Agents of the Federal Bureau of Investigation.

This survey was completed on April 12, 1972, and I am happy to advise that no evidence of tampering was observed.

Sincerely yours,

J. Edgar Hoover

[redacted] of Senator McClellan's staff telephonically contacted Mr. Bishop on the morning of 4-10-72 and stated the Senator is concerned that there may be some interception of his telephone conversations. The Senator, who is Chairman of the Committee on Government Operations and its Permanent Subcommittee on Investigations, has been for some months conducting investigations into organized crime activities through the Subcommittee. He also is currently involved in a campaign for reelection to the Senate. [redacted] said that the Senator had specifically requested that the FBI be asked to check the phones in his offices on Capitol Hill and in his office in the Federal Office Building in Little Rock, Arkansas.

Senator McClellan is Chairman of the Appropriations Subcommittee which handles FBI appropriations and has been a staunch supporter of the FBI for many years. It is felt we should accede to his request to check the telephones in his offices here and in Little Rock for signs of possible interception.

RECOMMENDATION:

That authorization be given to checking the telephones in the Senator's offices on Capitol Hill and in the Federal Office Building in Little Rock and that this be handled by the FBI Laboratory, and that Mr. Bishop so advise [redacted]

With regard to the noise experienced Saturday, 4/8/72, on a telephone call from Mr. Felt to the Director through the Bureau switchboard, immediately following the call in question representatives from the Laboratory working with personnel of Files and Communications Division thoroughly checked all of the switchboard equipment involved and ascertained that the Bureau switchboard equipment was all operating normally and properly. It is noted that when calls are placed to the Emerson number at the Director's residence, these calls necessarily have to be routed by telephone company equipment through two separate switching centers, namely, the National and the Woodley exchanges. It is concluded that for the call in question there was probably a temporary malfunction such as a poor contact at one of these switching centers. This conclusion is supported by the fact that when the call was re-established by the operator the problem did not recur. Similarly, subsequent test calls placed to and from the Director's residence through these switching centers failed to result in a recurrence. However, the phone company is rechecking operation of its equipment in an effort to prevent further possible temporary malfunction, and Laboratory representatives are completing a security check of the Director's and Mr. Felt's lines.

Lab has completed check 4-12-72 WWB - negative -

It is noted that the Director also has available in his residence, in addition to the Emerson dial phone, a direct manual telephone to the Bureau switchboard. Over this direct manual extension, merely lifting the telephone to the Director's ear automatically signals the Bureau operator and she will acknowledge the call by saying "Operator" and thereafter comply with the Director's desire in establishing or transferring a call. This direct manual extension, although routed through the same two exchanges as the other line, does not involve the use of telephone company switching equipment, since it is permanently wired through direct to the Director's residence. It would, therefore, not be subject to temporary malfunctioning of switching equipment. (Both the Emerson dial number and the manual extension would, of course, still be

Memorandum to Mr. Conrad
RE: NOISE ON DIRECTOR'S
TELEPHONE LINE

subject to possible noise on the line due to telephone company cable problems such as water seeping into the telephone cable during adverse weather conditions, icing of overhead line, and the like.)

It is noted that telephone company representatives have advised us informally and confidentially that they are experiencing some increased maintenance problems, because of the increasing difficulty in securing and retaining competent maintenance personnel.

ACTION:

The Laboratory and Files and Communications Divisions will continue to impress upon the telephone company the need for the highest possible maintenance on the Director's and other officials' lines; however, it is suggested that if future difficulty is experienced on the Emerson line, the trouble possibly may be cleared by having the operator re-establish the call over the Emerson line as was done in the current instance or the Director may wish to consider going to the direct manual extension for the completion of the call or providing any necessary instruction.

By letter to the Acting Director dated 5/10/72, Mr. Harry C. de Venoge, Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone survey in several rooms of Secretary Peterson's residence at

b6
b7c

Pursuant to the request and in accordance with oral coordination with Mr. de Venoge, a security survey was completed of the living room, dining room, and library of Secretary Peterson's residence on May 11, 1972. No evidence of eavesdropping devices or tampering of the telephone service was observed at the time of this check. In view of the urgency indicated in the incoming request, in the absence of Mr. de Venoge, his Deputy, Mr. William Randolph, was telephonically advised of the results following completion of the survey.

Attached is a suggested letter to Mr. de Venoge which advises of the results of this security survey.

RECOMMENDATION:

That the attached letter to Mr. de Venoge reporting results of the microphone and telephone survey at the residence of Secretary of Commerce, Peter G. Peterson, be approved.

SUBJECT: TELEPHONE SERVICE FOR ACTING
DIRECTOR L. PATRICK GRAY, III

Mr. Gray resides at [REDACTED]

He has unlisted telephone number [REDACTED]

The Files and Communications Division should immediately arrange for the Telephone Company to install a manual line into Mr. Gray's residence off the switchboard.

Mrs. Gray will probably want to decide on the type of instrument and the color; however, arrangements should definitely be made for a call waiting light.

The Laboratory Division should make arrangements for an immediate sweep of the existing telephone for security reasons.

The New Haven field division has advised that a telephone security survey has been completed at the residence of Acting Director L. Patrick Gray, III, in Stonington, Connecticut, on May 17, 1972.

This survey included a physical check of all outside terminations as well as the appearances and equipment at the central office of the Southern New England Telephone Company located on Pequot Trail, Stonington, Connecticut. No evidence of tampering was noted at the time this survey was made.

The following additional security measures will be completed by the telephone company on May 22, 1972.

(1) Removal of all multiple appearances which appear on three poles between the Acting Director's residence and the telephone company office.

(2) Lowering of the pedestal at entrance to residence, into the ground, and affixing a lock to it.

Securing drop line where it emerges from the ground and enters the residence.

RECOMMENDATION:

That the above information be made available to the Acting Director.

FROM : SA [REDACTED]

SUBJECT: SECURITY OF TELEPHONE
FACILITIES AT RESIDENCE
OF DIRECTOR L. PATRICK
GRAY, III, FINDLAY WAY,
STONINGTON, CONN.

On 5-16-72 a security check of the telephone service assigned to the residence of Director L. PATRICK GRAY, III, Findlay Way, Stonington, was conducted. As a result thereof, the following information was ascertained:

Telephone number [REDACTED] is assigned to Director GRAY. Telephone number [REDACTED] is assigned to [REDACTED]

[REDACTED] who also resides in the aforementioned residence.

b6
b7C

A review of cable assignment records within the New London, Conn., Office., Southern New England Telephone Co., (SNETCO), revealed the following:

Telephone number [REDACTED] (Director GRAY's telephone) works off of telephone pair number 1227 within cable number 30. The telephone drop wire (which actually appears within the Director's home) runs from a pedestal underground from the head of the driveway on Findlay Way, Stonington, Conn., to the Director's home. The drop wire runs out of the ground in the northwest corner of the residence and enters the residence through the side of the building with about one foot of drop wire exposed at the point of entrance. Multiple appearances for this service are located as follows:

Pole number 3226, Stonington Rd., Stonington, Conn., binding post number 2.

NH 66-704

Pole number 3258, Stonington Rd., Stonington, Conn.,
binding post number 2, Pole number 892, Montauk Ave.,
Stonington, binding post number 27.

With respect to the telephone number [redacted] assigned
to [redacted] the following is noted:

This service also appears within the pedestal at
the head of the driveway on [redacted]
and proceeds underground to Director GRAY's residence
through telephone pair number 1228 in cable number
30. This pair (number 1228) and the Director's
service (pair number 1227) are transmitted to the
residence by means of a two pair buried drop wire.
As previously mentioned, this two pair wire comes
out of the ground at the northwest corner of the
house and about one foot of the wire is exposed
before it enters the side of the wall at the residence.

b6
b7c

Multiple appearances of telephone number [redacted]
[redacted] appear on pole number 3226, [redacted]
[redacted] binding post number 3 on pole number 3258,
[redacted] binding post number
3, and on pole number 829 [redacted]
binding post number 28.

Observation of the telephone service within the
residence reveals that the telephone drop lines enter
the home in a crawl space and are disseminated
within the residence in the crawl space and basement
areas. Telephone instruments within the home are
as follows:

One series 2500 D touch tone telephone instrument
is located in the downstairs entry way. This telephone
is assigned to Director GRAY. One 2500 D series
touch tone telephone is located in the second story
bedroom. This instrument is also assigned to
Director GRAY. One Trimline touch tone telephone
instrument is located in the first floor den, likewise,
this instrument is assigned to the Director.

NH 66-704

A touch tone Trimline instrument working off of telephone number [redacted] is located within the bedroom of [redacted] the Director's mother-in-law.

b6
b7C

The aforementioned telephone service appears on the telephone main frame at the Mystic-Stonington Office, SNETCO, located on Pequot Trail, Stonington. This service appears on cable number 30, pairs 1227 and 1228 on the telephone main frame.

Physical examination of all of the telephone appearances mentioned above and of the telephone service located within the Director's residence revealed that it is in good order and there is no evidence it has been tampered with. The following recommendations have been made to the telephone company for added security of this service and [redacted]

Conn., has stated that the recommended changes will be performed and completed by 5-22-72.

- 1) Remove all multiple appearances located on poles numbered 3226, 3258, 892, mentioned above.
- 2) Since the drop wire is exposed at the bottom of the pedestal, it is recommended that the pedestal be lowered into the ground and that a lock be affixed to it, in order to prevent tampering with the service.
- 3) The drop line serving the residence must be protected where it emerges from the ground and enters the Director's residence. Approximately one foot of the wire is exposed at this point and the service could be terminated by cutting the wire where it emerges from the ground. This situation will also be remedied by the telephone company.

NH 66-704

The SNETCO representative [REDACTED] has stated that two additional telephone lines are available for installation in the Director's home if needed. These lines (telephone conductors) are being reserved; however, it should be noted that installation of them would require digging trenches from the pedestal located at the head of the driveway to the residence, a distance of approximately 150 yards across an established lawn.

b6
b7C

Use of the RF probe failed to reveal the existence of extraneous radio frequency within the residence.

SUBJECT: SECURITY SURVEY, OFFICE OF
SECRETARY OF COMMERCE,
PETER G. PETERSON, AND
UNDER SECRETARY JAMES T. LYNN

By letter to the Acting Director dated 5/26/72, Mr. Harry C. de Venoge, Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone security survey in the offices of the Secretary, Mr. Peterson, and the Under Secretary, Mr. Lynn.

On 6/1/72, a security survey was completed of the offices of the Secretary, Mr. Peterson, and his Under Secretary, Mr. Lynn. No evidence of eavesdropping devices or tampering was observed at the time of this check.

Attached is a suggested letter to Mr. de Venoge which advises of the results of this security survey.

RECOMMENDATION:

That the attached letter to Mr. de Venoge reporting results of the microphone and telephone survey at the offices of Secretary of Commerce, Peter G. Peterson, and Under Secretary, James T. Lynn be approved.

SUBJECT: *0* SECURITY SURVEY, OFFICE
OF SECRETARY OF HEALTH, EDUCATION,
AND WELFARE, ELLIOT L. RICHARDSON

By letter to Acting Director L. Patrick Gray, III, dated June 6, 1972, Mr. Nathan D. Dick (former Special Agent), Director of Security at the Department of Health, Education, and Welfare, requested that Bureau personnel conduct a microphone and telephone survey of offices used by the Secretary, the Under Secretary and the Counselor to the Department.

On June 12, 1972, in accordance with arrangements made with Mr. Dick, FBI Laboratory personnel conducted a microphone and telephone survey in the office of Secretary Elliot L. Richardson, and those of Under Secretary John G. Veneman and Counselor to the Department Jonathan Moore. No evidence of eavesdropping devices was observed at the time of the survey. Attached is a letter to Mr. Dick advising him of completion of the survey.

RECOMMENDATION:

16-14-72
That the attached letter to Mr. Nathan D. Dick be approved.

SUBJECT: SENATOR ROBERT GRIFFIN (R-MICH.)

Per Mr. Gray's instructions, Inspector Bowers called on Senator Griffin on 6-27-72 (the Senator had been out of the city since 6-22-72) and advised him we would arrange to have the telephone company make a security check of his telephones and that FBI personnel would check his office space for electronic devices when manpower is available to do so. The Senator expressed his appreciation for this service. He stated specific arrangements regarding date and time for these checks can be made through his Administrative Assistant, Cecil Holland, in Room S229 of the Capitol, telephone number 225-2708.

RECOMMENDATION:

That this be referred to the Laboratory which should arrange with appropriate telephone company officials to check the Senator's phones and to schedule a sweep of the Senator's offices when FBI personnel trained to perform this function are available.

DATE: 6-22-72

FROM : M. A. Jones

SUBJECT: CONGRESSMAN JAMES G. O'HARA (D-MICH.)

At 5:45 p.m. on 6-21-72 Congressman O'Hara telephonically spoke with Inspector Bowers and stated he is Chairman of the Rules Committee, Democratic National Convention. He stated that in view of recent events; i. e., the break-in at the Democratic National Headquarters and the earlier break-in at the office of Patricia Harris, Chairman of the Credentials Committee, Democratic National Convention, he felt it might be mutually beneficial to him and the FBI to have his office checked to determine if any "bugging" devices might be secreted there. He stated it would certainly be reassuring to him and he felt would be of interest to the FBI in connection with its investigation of the break-in at the Democratic National Headquarters. He said he assumed we also were interested in the break-in on 5-18-72 at the office of the law firm of Freed, Frank, Harris, Shriver, and Kampelman located on the tenth floor of the Watergate since this also is the office of Patricia Harris, Chairman of the Credentials Committee. The Congressman stated he uses his Congressional Office at 2241 Rayburn House Office Building for his activities as Chairman of the Democratic National Convention Rules Committee. He said he has no specific reason to feel his office has been broken into or tampered with but there appears to be a possible pattern of break-ins involving offices of ranking officials of the Democratic Party, and, for this reason, he thinks a check of his office would be wise. The Congressman was told that a check would be made concerning his request and he would be recontacted.

REC-33

We have enjoyed a satisfactory relationship with Congressman O'Hara who has served in Congress since 1959. In view of the circumstances of his request, it is felt it would be prudent to have someone from the Laboratory check the Congressman's office in the Rayburn Building.

RECOMMENDATION:

That appropriate personnel from the FBI Laboratory be assigned to check Congressman O'Hara's office and that Inspector Bowers arrange an appointment for this purpose.

SUBJECT: STATUS REPORT ON SECURITY
SURVEYS

1 - Mr. Felt
1 - Mr. Donahoe
1 - Mr. Bates
1 - Mr. E. S. Miller
1 - Mr. Conrad
1 - Mr. Bradley

Mr. Gray has made inquiry concerning the status of security surveys being conducted by the Bureau at the Democratic and Republican National Committee Headquarters and for other locations as set forth below:

(1) DEMOCRATIC NATIONAL COMMITTEE HEADQUARTERS:

This survey has been completed and a report submitted by memorandum dated 7/3/72. No tampering of telephone services or listening devices were observed at the time the survey was conducted.

(2) DEMOCRATIC CREDENTIALS COMMITTEE:

At the request of Mr. Greig, it was originally planned to conduct this survey along with the survey of the Democratic National Committee Headquarters. We were given the name of [redacted] Chairman of the Committee, as the person to contact to make arrangements for access to her space. We have repeatedly tried to contact [redacted] at her office and have been unable to talk to her. On each call, we left a name and telephone number for her to call but she has not returned our calls. Today, her secretary arranged an appointment with [redacted] for 10:00 a.m., 7/5/72, and we expect to begin the survey at that time. It will be completed as rapidly as she provides access to her space.

(3) COMMITTEE TO RE-ELECT PRESIDENT NIXON:

This survey has been started and will resume at 4:00 p.m., 7/5/72. It was felt that in view of the break-in at the Democratic National Headquarters, a survey of that area should be conducted first. Now that we have completed the Democratic Headquarters survey, we will concentrate our efforts on completing the surveys for this Committee and the Republican National Headquarters at the earliest possible date.

EX-104

REC-59

15 JUL 7 1972

CONTINUED - OVER

97 JUL 12 1972

Memorandum to Mr. Conrad
RE: STATUS REPORT ON SECURITY
SURVEYS

(4) REPUBLICAN NATIONAL COMMITTEE HEADQUARTERS:

A preliminary survey has been conducted at this location and a full sweep of the entire area will be made upon completion of the survey now being made for the Committee to Re-elect President Nixon.

(5)

With regard to Mr. Gray's inquiry regarding White House security surveys, it is noted that many years ago we were asked to conduct security surveys at the White House on occasion. In recent years, the White House has established its own security detail to conduct its own sweeps. However, we have, in one or two instances, made checks of limited areas under unusual conditions and upon specific request. For example, approximately two years ago, a survey was conducted of Doctor Kissinger's Office at his request.

(6)

Mr. Gray also inquired as to what we know concerning wiretaps made by the Metropolitan Police Department. Except as set out below, to the best of our knowledge the Bureau is not advised concerning wiretaps placed by the Metropolitan Police. The Domestic Intelligence Division, the General Investigative Division, and the Special Investigative Division have been contacted and they report that they are not normally advised by Metropolitan Police concerning wiretaps installed by the police. Washington Field Office was also contacted and SAC Kunkel advised that no formal notification procedure exists; however, that on occasions involving Title III wiretaps by Metropolitan Police, a police department representative may advise informally a supervisor in Washington Field as a matter of coordination.

ACTION:

The security surveys scheduled will be closely followed and will be completed as rapidly as the space is made available for this purpose.

SECURITY SURVEY

SENATOR ROBERT P. GRIFFIN
(R-MICH.)

Reference is made to memorandum, M.A. Jones to Mr. Bishop dated 6/28/72, stating that Mr. Gray had instructed that arrangements should be made with the telephone company to conduct a security check of telephones in the office space of Senator Robert P. Griffin (R-Mich.). Mr. Gray also instructed that the Bureau conduct a security survey of Senator Griffin's Office space as soon as trained FBI personnel were available.

In accordance with arrangements made by the Laboratory the C & P Telephone Company of Washington, D. C. completed a survey of the telephone services in the Senator's offices on 7/11/72. (Earliest telephone company could make survey.)

On 7/12/72, personnel of the FBI Laboratory completed a security survey of Senator Griffin's office in the Capitol Building Room S229 and his suite of offices in the Old Senate Office Building. No evidence of any irregularities was observed at the time of these surveys.

RECOMMENDATION:

That the attached letter to Senator Griffin reporting the results of these security surveys on 7/11/72 and 7/12/72, be approved.

(1) Reference my memoranda 7/3/72, and 7/7/72, advising status of security surveys of space occupied by the Democratic and Republican Party organizations in Washington, D. C. *per 597* *per 600*

A security survey has been completed of the Republican National Committee Headquarters, at 310 First Street, S. E., subsequent to my memorandum of 7/7/72.

No evidence of surreptitious listening devices or tampering of the telephone service was observed at the time of this survey. This organization has not been advised of the results of this survey by the Laboratory. Gen. Inves. Div. is handling.

The Committee to Re-elect President Nixon is presently moving into additional space at 1730 Pennsylvania Avenue N.W. and upon completion of this move they will advise us and a survey will be made of this additional space.

ACTION:

The remaining survey of additional space of the Committee to Re-elect President Nixon, at 1730 Pennsylvania Avenue, N.W. will be done when we are advised that the move has been completed.

Reference my memo 7-3-72, advising of status of security surveys of space occupied by the Democratic and Republican Party organizations in Washington, D. C.

We have now-completed surveys at the following locations:

- (1) Democratic National Committee Headquarters (completed per memo 7/3/72).
- (2) Democratic Credentials Committee
- (3) Committee to Re-elect President Nixon

Survey of space occupied by this committee at 1701 Pennsylvania Avenue has been completed; however, the committee is presently moving into additional space at 1730 Pennsylvania Avenue and upon completion of the move they are to advise us so that a survey can be made of this additional space.

No evidence of surreptitious listening devices or tampering of the telephone service was observed at the time of the above checks. The organizations listed have not been advised of the results of the surveys by the Laboratory.

We are continuing today a survey of the Republican National Committee Headquarters and this will be completed at the earliest possible time.

ACTION:

The security surveys will continue as rapidly as possible and you will be immediately advised when all surveys have been completed.

Dear Congressman O'Hara:

In keeping with your request a security survey of your telephone services has been made by telephone company personnel and a survey of your office space has been made by Special Agents of the Federal Bureau of Investigation.

These surveys were completed on July 14, 1972, and I am pleased to advise that no evidence of tampering or surreptitious listening devices was observed at the time these surveys were completed.

Telephone Security Surveys
Reference is made to memorandum M. A. Jones to Mr. Bishop dated 6/22/72, stating that Congressman O'Hara had telephonically contacted Inspector Bowers regarding a security survey of his telephone facilities and office space in the Rayburn House Office Building.

In accordance with arrangements made by the Laboratory the C & P Telephone Company of Washington, D. C. completed a survey of the telephone services in the Congressman's offices on 7/10/72.

On 7/14/72, personnel of the FBI Laboratory completed a security survey of Congressman O'Hara's office space in the Rayburn House Office Building, Room 2241. No evidence of any irregularities was observed at the time of these surveys.

RECOMMENDATION:

That the attached letter to Congressman O'Hara reporting the results of these surveys on 7/10 and 7/14 be approved.

By letter dated 7/12/72, the SAC, Tampa division advised that the U. S. Attorney's (USA) office in Tampa, Florida, requested by letter 7/10/72, that a security survey be conducted of the USA office space by technically trained Agents of the Tampa FBI office. The SAC at Tampa recommends this be done.

The Bureau has in the past, upon recommendation of the SAC, authorized security surveys for U. S. Attorneys, judges, etc., to be conducted by local sound trained Agents. The Laboratory feels that the Tampa division should honor this request and conduct a security survey for the U. S. Attorney's office in Tampa, Florida.

RECOMMENDATION:

It is recommended that the Tampa office be telephonically advised to conduct a security survey in the U. S. Attorney's office at Tampa, Florida, and advise the Bureau by letter when this has been completed.

SUBJECT: UNITED STATES ATTORNEY'S OFFICE
TAMPA, FLORIDA
SECURITY OF TELEPHONE LINES

Transmitted herewith is copy of letter dated 7/10/72 received from AUSA HUGH H. SMITH, U. S. Attorney's Office, Tampa, Florida.

Mr. SMITH, among other duties, has the responsibility of security of space occupied by USA's Office in the U. S. Courthouse Building in Tampa. It will be noted that we have been handling a large number of Organized-Crime type cases, and it is not inconceivable that someone might be interested in tapping in on the lines of the USA's Office to find out what plans or action they had in mind.

I respectfully recommend that the Bureau authorize us to have one of our technical-trained Agents check the telephone lines in the USA's Office as a cooperative measure.

Reference my memoranda 7/3/72, 7/7/72 and 7/10/72, advising status of security surveys of space occupied by the Democratic and Republican Party Organizations in Washington, D. C.

On 7/17/72, a security survey was completed of the space recently occupied by the Committee to Re-elect President Nixon at 1730 Pennsylvania Avenue, N. W.

No evidence of surreptitious listening devices or tampering of the telephone services was observed at the time of this survey.

None of the party organizations of either the Democratic or Republican Parties have been advised of the results of these surveys by the Laboratory. *

The completion of this security work on 7/17/72, completes the Bureau's commitment to both political parties as it concerns security surveys of their respective organization headquarters in Washington, D. C.

Pursuant to oral instructions, on 6/30/72, a security survey was completed of the Democratic National Committee Headquarters, 2600 Virginia Avenue, N.W., Washington, D. C. During the course of this work, nothing was found to warrant defacing or mutilating the walls or ceilings in order to complete the survey.

At the time of the initial contact with Stanley Greig, Deputy Chairman of the Democratic National Committee, it was determined that temporary space had been occupied on the first and fifth floor, however, on Greig's recommendation the survey was confined to the sixth floor, which is the permanent quarters for this committee.

No evidence of eavesdropping devices or tampering of the telephone service was observed at the time of this check.

No representative of the Democratic National Committee has been advised of the results of this survey.

By letter to the Acting Director dated August 8, 1972, Mr. Harry C. de Venoge, Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone security survey in the offices and residences of the Secretary, Mr. Peterson, and Under Secretary, Mr. Lynn. *per 606*

On 8/15/72, a security survey was completed of the offices of the Secretary, Mr. Peterson, and his Under Secretary, Mr. Lynn.

On 8/17/72, a security survey was completed of the residences of Secretary Peterson and Under Secretary Lynn which included the telephone service and those areas where items of a sensitive nature would be discussed. No evidence of eaves-dropping devices or tampering was observed at the time of these surveys.

Attached is a suggested letter to Mr. de Venoge which advises of the results of these security surveys.

RECOMMENDATION:

That the attached letter to Mr. de Venoge reporting results of the microphone and telephone survey of the offices and residences of the Secretary, Mr. Peterson, and Under Secretary, Mr. Lynn, be approved. *1*

Dear Congressman McCollister:

In keeping with your request a security survey of your telephone service has been made by telephone company personnel and a survey of your office space has been made by Special Agents of the Federal Bureau of Investigation in Omaha, Nebraska, and Washington, D. C.

These surveys were completed on August 16, 1972, and I am pleased to advise that no evidence of tampering or surreptitious listening devices was observed at the time these surveys were completed.

Sincerely yours,

UNRECORDED COPY FILED IN 94-

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Bishop *Bishop*

DATE: 8-10-72

FROM : M. A. Jones *M. A. Jones*SUBJECT: CONGRESSMAN JOHN Y. MCCOLLISTER
(R-NEBRASKA)*Telephone Security Checks*

Fran Westner, Office Manager for Congressman McCollister, telephonically contacted Inspector Bowers on 8-10-72 and advised that in the last few days the Congressman's offices in Omaha, Nebraska, and Washington apparently have been entered by unauthorized personnel and some of their files gone through. She said this has caused them considerable concern, particularly since the Congressman is presently involved in a campaign for reelection and they feel it would be prudent on their part to have some checks made for possible telephone taps and/or "bugs" in their offices in Washington and Omaha. She inquired as to whether or not the FBI could handle these checks for the Congressman. She was advised that the telephone company is the proper party to check the security of the telephone lines and was told that we have a very limited number of personnel who can handle security checks of offices and that a check would be made to determine if personnel would be available to make the security survey of the Congressman's offices. She asked if we could make the necessary arrangements with the telephone company.

Enclosed is a teletype from the Omaha Office of 8-9-72 concerning the unauthorized entry into the Congressman's Omaha office on 8-7-72. This reveals that constituent correspondence index files apparently had been looked through. There was no indication that anything had been taken. This shows also that the Washington office had been entered the same date (8-7-72) and apparently constituent files also entered.

Our relations with Congressman McCollister have been cordial. He is serving his first term in Congress.

RECOMMENDATION:

That the Laboratory make necessary arrangements with the telephone company for a check of the Congressman's office telephones here and in Omaha and also schedule as soon as possible a check of these offices by FBI personnel. The Congressman's office in Washington is located in Room 511, Cannon House Office Building, while his Omaha office is located in Room 2313, Federal Building.

SUBJECT: SECURITY SURVEY
CONGRESSMAN JOHN Y. MC COLLISTER
(R-NEBRASKA) *DC*

Telephone security checks

Reference is made to memorandum M. A. Jones to Mr. Bishop 8/10/72, in which it was reported that Fran Westner of Congressman McCollister's staff had telephonically contacted Inspector Bowers and advised that the Congressman's offices in Omaha, Nebraska, and Washington, D. C. had been entered by unauthorized personnel and certain files had been pilfered. Because of this the Congressman felt that a security survey should be conducted of his offices in Omaha, Nebraska and Washington, D. C. and asked if we could arrange to have this done. This was approved by the Acting Director.

In accordance with arrangements made by the Laboratory the C & P Telephone Co. and the Northwestern Bell Telephone Co. completed survey of the telephone facilities in the offices of the Congressman in Washington, D. C. and Omaha, Nebraska, on 8/15/72. They reported no evidence of tampering.

On 8/16/72, personnel of the FBI Laboratory and technically trained Agents of the Omaha field division completed security surveys of these offices. No evidence of any irregularities was observed at the time of these surveys.

RECOMMENDATION:

That the attached letter to Congressman McCollister reporting the results of these security surveys on 8/15/72, and 8/16/72, be approved.

GENERAL INVESTIGATIVE DIVISION

Attached relates to request made by
[redacted] Administrative Assistant to U.S.
Congressman Lloyd Meeds (Democrat - Washington)
Everett, Washington, on 9/11/72 to Senior
Resident Agent, [redacted] to conduct sweep
of Congressman Meeds' Everett office to
determine if any microphone surveillance
or technical surveillance has been
installed in that office. [redacted] advised
because of suspicious circumstances during
past several weeks he believes someone has
entered the office (which is adjacent to FBI
Resident Agency) although nothing is missing.
Seattle has sound trained Agent
available to conduct sweep and recommends
same.

Bureau files show limited but cordial
contacts with Congressman Meeds.

If approved, Seattle will be instructed
to make arrangements with the telephone
company to have the Congressman's office
checked for a telephone tap. A sound trained
Agent of the Seattle Office will be authorized
to make check for other technical surveillance
equipment.

SUBJECT: REQUEST FOR SECURITY SURVEY
U. S. DISTRICT COURT JUDGE SIRICA

Security Survey

On 9/21/72, a telephone call was received from Chief Inspector Reis R. Kash of the U. S. Marshal's Office for the District of Columbia, a graduate of the 76th session of the National Academy, requesting an electronic sweep of space assigned to Judge Sirica who has requested that his office be checked for electronic listening devices.

Pursuant to your approval, arrangements were made to conduct a survey of Judge Sirica's suite of offices and the survey was completed on 9/22/72.

No evidence of surreptitious listening devices was found. SAC, Kunkel of the Washington Field Office was instructed to orally advise Chief Judge Sirica and Marshal Papa that no evidence of surreptitious listening devices was found.

ACTION:

A suggested letter confirming results of the survey is attached for forwarding to Judge Sirica. *to*

Ms. Herwig _____
Mrs. Neenan *men*

By letter to the Acting Director dated October 11, 1972, Mr. Harry C. de Venoge, Director of Investigations and Security, Department of Commerce, requested that Bureau personnel conduct a microphone and telephone security survey of the office of Secretary Peterson, that of the Under Secretary, the office of the Executive Assistant to the Secretary and the Secretary's dining room. Also to be included are the cars of the Secretary and the Under Secretary.

On 10/12/72, the above requested security survey was completed. This survey included both electronic and physical searches of telephone instruments and associated equipment. Physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture or damage to the limousines. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Attached is a suggested letter to Mr. de Venoge which advises of the result of this survey.

RECOMMENDATION:

417
That the attached letter to Mr. de Venoge reporting the result of this survey be approved.

Honorable John J. Sirica
United States District Court for the
District of Columbia
United States Court House
Washington, D. C. 20001

Dear Judge Sirica:

At the request of Reis R. Cash, Chief Inspector
for the United States Marshal's office for the District of Columbia,
Special Agents of the FBI Laboratory conducted a microphone and
telephone security survey of your suite of offices in the United States
Court House, Washington, D. C. on Wednesday, October 18, 1972.
Also included was Courtroom #2 adjacent to your suite of offices.

The physical search during this survey was limited to
the most likely places a listening device could be hidden without
defacing office walls and furniture.

I am pleased to advise you that no evidence of
eavesdropping devices or tampering was found at the time of
this survey.

Sincerely yours,
L. Patrick Gray III

On 10/13/72, Reis R. Cash, Chief Inspector for the United States Marshal's office, District of Columbia, a graduate of the 76th session of the National Academy, advised that Judge Sirica had requested that the FBI conduct a microphone and telephone security survey of his office suite in the District Court Building, which includes his private office, a Law Library, Secretary's office and a Law Clerk's office. In addition he requested that #2 Courtroom adjacent to his office suite, also be afforded a security survey.

In accordance with arrangements by [redacted] Security Coordinator for the United States Marshal's office, District of Columbia, on 10/18/72, the above requested security survey was completed. This survey included both electronic and physical searches of telephone instruments. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

ACTION:

A suggested letter confirming results of this survey is attached for forwarding to Judge Sirica.

A memorandum C. Bolz to Mr. Bates dated 10/24/72, advised that Assistant Attorney General Henry Petersen, Criminal Division, United States Department of Justice had requested that an electronic sweep be made of his suite of offices.

In accordance with arrangements made by Laboratory personnel with Mr. Petersen, on 10/26/72, a security survey was completed of this office suite.

This survey included both electronic and physical searches of ^{all} telephone instruments. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

ACTION:

A memorandum confirming results of this survey is attached for forwarding to the Assistant Attorney General of the Criminal Division, Henry Petersen.

SECURITY SURVEYS

Dear Mr. Gray:

Thank you for your letter of October 20th
advising the results of the microphone and telephone
security survey of my suite of offices and courtroom.
You may wish to correct your records to reflect that
the number of the courtroom searched on October 18th
was Courtroom No. 2 which is the one assigned to me
and adjacent to my chambers.

*Records (minutes
& letter) corrected

By memorandum W. M. Felt to Mr. Conrad dated 2/14/73, Mr. Gray instructed that a security survey be conducted in the Attorney General's suite of offices.

Pursuant to this instruction arrangements were made with the Attorney General's secretary and a security survey of the Attorney General's suite was completed on 2/16/73. This survey included both electronic and physical searches of telephone instruments and associated equipment. Physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Mr. Mintz _____
Mrs. Neenan _____

Reference is made to a memorandum D. W. Bowers to Mr. Kinley 2/14/73, advising that Mr. Felt had approved a security survey of captioned Hearing Room as requested by Mr. Marian Czarnecki, Chief of Staff, House Committee on Foreign Affairs.

On the same date a security survey was completed of this Hearing Room in the Rayburn Building as well as the adjoining offices of the Chairman of this committee, Congressman Thomas E. Morgan, Democrat of Pennsylvania, and Mr. Marian Czarnecki, Chief of Staff.

This survey included both electronic and physical searches of telephone instruments and associated equipment. A physical search for listening devices was limited to the most likely places they could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Mr. Felt and Mr. Bowers have been advised of the results of this survey and Bowers is advising Mr. Czarnecki of the same.

[redacted]
Congressman Shuster, contacted Bowers on the morning of 2/21/73 and advised the Congressman's district office in the Penn Alto Hotel, Altoona, Pennsylvania, had been broken into the night before, the lock being broken on the door. He stated so far as they have been able to determine, nothing was taken although there are several items of value in the office. He stated because there apparently was nothing taken in the breakin, the Congressman fears that it might have been a cover for the placing of a listening device in his office. He stated the Congressman has been engaged in a running battle with a local newspaper and he feels this paper might well attempt to plant some type of device in his office.

[redacted] stated the Congressman wanted the FBI, if possible, to check his office in Altoona for any possible listening devices. The Laboratory has advised that there is personnel assigned to the Pittsburgh Office which covers Altoona, capable of making such a check. We have on occasions in the past made such checks for Members of Congress. Congressman Shuster is serving his first term and we have had two contacts with him since he took office in January, both of which have been friendly.

RECOMMENDATION:

62-97308-634
That in view of the nature of the specific request, we make this check of the Congressman's office and that this be referred to the FEB 28 1973 Laboratory so that appropriate instructions may be given to the Pittsburgh Office.

*ASAC McKinnon instructed to have Pittsburgh send man make check for microphones and telephone tampering inside office. If check of - Mr. Bowers telephone lines outside of office requested this should be handled by phone co. Bureau should be advised when check is completed 2-23-73 *WVW**
Approved.

SECURITY SURVEY

DEPUTY ATTORNEY GENERAL'S OFFICE SUITE
JUSTICE BUILDING, WASHINGTON, D. C.

I have had Special Agents of the Federal Bureau of Investigation conduct a microphone and telephone security survey in your office suite.

The physical search during this survey was limited to the most likely places a listening device could be hidden without defacing office walls and furniture. This survey also included a check of all telephone instruments in the rooms at the time.

No evidence of eavesdropping equipment or tampering was detected at the time of this survey.

1 - Mr. Bradley

**SECURITY SURVEY;
ATTORNEY GENERAL'S RESIDENCE**

On March 2, 1973, a survey was made of your residence for the possible presence of surreptitious listening devices and security against clandestine or forced entry.

A. SURREPTITIOUS LISTENING DEVICES

No evidence of eavesdropping devices or tampering was found at the time of this survey.

The physical search during this survey was limited to the most likely places a listening device could be hidden without defacing walls and furniture. This survey also included a check of all telephone instruments in your residence.

B. FRONT DOOR LOCK

Impressions like those produced by a chisel, screwdriver or similar tool were found in the lock cylinder in the front door. The direction of these impressions and some stripping of the cylinder threads suggest that the cylinder was unscrewed from the door. These impressions are weathered and do not appear to be of recent origin. They are not the type or location that would have been made by a person having knowledge of surreptitious entry methods or by a locksmith. In fact, there are other outside doors which, because of their concealment, would be more logical areas for surreptitious entry. Removal of the front door lock cylinder by unscrewing would, of course, permit entry.

The front door cylinder lock was found to be insecurely held in the door by the set screw. This condition was corrected.

C. SECURITY OF RESIDENCE

As a result of the survey of the security of the entire residence, the following observations are made:

In order to adequately secure the front door, the cylinder

The Attorney General

lock should be replaced with a Medeco cylinder lock. Extension sliding bolts should be added to the left door (as viewed from outside). These extension bolts are installed in the edge of the door and, when the door is closed, are completely concealed.

2) There are four half-glass outside doors. A deadbolt lock operated by a key from both sides should be installed in each of these doors. If other than a keyed lock is installed on the inside, removing or breaking a pane of glass in one of these doors would permit a person to reach in and open the door. The proposed additional lock would correct this weakness.

3) Deadbolt locks operated by a key from the outside and a thumbturn on the inside should be placed on the inside door leading from the garage to the lower floor area and on the door leading from the laundry room to the lower floor area. The proposed additional lock will increase security.

4) Key operated window locks should be placed on all windows. It is realized that it would be difficult to gain access to the upper windows in the rear of the house because of their height from the ground. However, foliage around the backside of the house could permit sufficient concealment in the summer months for one, using a ladder, to possibly gain access through one of these windows.

These locks should all be keyed alike.

5) The key lock portions of the doorknob locks should be replaced with Medeco lock plugs. Medeco locks, based on research and testing in the Laboratory, have been found to be the most pick-resistant type of lock on the market today.

All door locks recommended should be of the Medeco type and should be set up to one and the same key for convenience.

By letter to Acting Director L. Patrick Gray, III, dated February 27, 1973, Mr. Nathan D. Dick, Director of Security at the Department of Health, Education and Welfare, requested that the Bureau conduct a microphone and telephone security survey of offices used by the Secretary, the Under Secretary, and the Special Assistant for Science.

On March 8, 1973, in accordance with arrangements made with Mr. Dick, FBI Laboratory personnel conducted a microphone and telephone security survey in the office of Secretary Caspar W. Weinberger, and those of Under Secretary Frank C. Carlucci, and Special Assistant Dr. Ian Mitchell.

This survey included both electronic and physical searches of telephone instruments and associated equipment. Physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

RECOMMENDATION:

[redacted] of the House Committee on Foreign Affairs, telephonically contacted me this morning and advised the Committee has a meeting scheduled for 9 a.m. on Thursday, 3/29/73, with Henry Kissinger in the Committee's Capitol Office, Room H-227. He said the Chairman of the Committee, Congressman Thomas E. Morgan (D. - Pa.) had asked him to arrange for the FBI to "sweep" this room prior to that meeting on Thursday. It should be recalled that we currently have an investigation underway concerning the discovery of a sophisticated transmitter which had been secreted in a chair of the main hearing room of this Committee; consequently, there is justification for great concern on the part of the Committee.

After checking with Mr. Felt, I contacted appropriate personnel in the Laboratory Division and arranged to have this security check made at 2 p.m. on Wednesday, 3/28/73. [redacted] has been so advised.

A memorandum D. W. Bowers to Mr. Kinley, dated 3/27/73, advised that Congressman Thomas E. Morgan (D. - Pa.) had requested the FBI to conduct a security survey of Room H-227 in the Capitol Building prior to 9:00 a.m. 3/29/73.

Pursuant to this request, a security survey was conducted in Room H-227, Capitol Building on 3/28/73. This survey included both electronic and physical searches of telephone instruments in the room at that time. A physical search was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

In accordance with D. W. Bowers' oral instructions, at the conclusion of this survey, [REDACTED] of the House Committee on Foreign Affairs, was advised of the results.

On April 16, 1973 and April 18, 1973, a security survey was completed of the Acting Director's suite of offices and the Acting Associate Director's suite of offices. This survey included a physical check of the space for any listening devices, a physical check of all telephone instruments in the suites at that time, and an RF sweep of the areas.

No evidence was found of any surreptitious listening devices or tampering with the telephone service. Both offices were advised of the results at the conclusion of the survey.

JUSTICE BUILDING, WASHINGTON, D. C.

I have had Special Agents of the Federal Bureau of Investigation conduct microphone and telephone security surveys in your residence and in your office suite on April 27, 1973, in accordance with your request.

The physical search during the surveys was limited to the most likely places a listening device could be hidden without defacing office walls and furniture. The surveys also included a check of all telephone instruments in the rooms at the time.

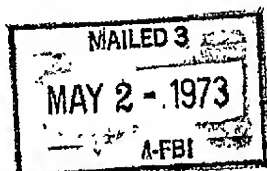

No evidence of eavesdropping equipment or tampering was detected at the time of the surveys.

NOTE:

Pursuant to instructions by Mr. Felt 4/26/73, personnel of the FBI Laboratory conducted security surveys of the Attorney General's suite of offices and his residence on 4/27/73. This is to advise the Attorney General of results of the security surveys.

SUBJECT: TELEPHONE SECURITY

I am advised that this afternoon the telephone company completed final adjustments on the new telephone line linking the Acting Director's residence with the Bureau switchboard. Accordingly, it is recommended that we make a security check of this telephone line to see that everything is in order. The telephone instruments themselves connected to this line were checked at the time of installation. If desired we will also conduct a similar check on other telephone service to the Acting Director's residence.

ACTION:

If desired, Laboratory will arrange for and handle the security check.

On May 9-10, 1973, a security survey was completed of the telephone facilities at the residence of the Acting Director William D. Ruckelshaus. This included a check of all appearances of the telephone service outside the residence as well as a physical inspection of the telephone instruments in the residence at that time.

No evidence was found of any surreptitious listening devices or tampering with the telephone service.

In connection with the above check it was noted that the telephone service, as is customary, is accessible at several points outside the residence. The Chesapeake and Potomac Telephone Company of Maryland is removing all of these access points and advised that there would be no expense to the Bureau for this service.

By letter to the Director, dated July 10, 1973, Mr. Nathan D. Dick, Director, Office of Investigations and Security, Department of Health, Education and Welfare (HEW), requested that the FBI conduct a Security Survey of the offices of the Secretary of HEW, Caspar W. Weinberger, the Under Secretary Frank C. Carlucci, and Assistant Secretary Dr. Robert H. Marik. This was approved.

On 7/26/73, personnel of the FBI Laboratory completed the above requested Security Survey. This survey included both electronic and physical searches of telephones in the office at that time. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings and furniture.

No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Department of Commerce
Washington, D. C. 20230

Dear Mr. de Venoge:

Pursuant to your letter of July 20, 1973, Special Agents of the Federal Bureau of Investigation have completed a microphone and telephone security survey of the offices of Secretary of Commerce Frederick B. Dent, Under Secretary John K. Tabor, Assistant Secretary for Administration Henry B. Turner, and Acting General Counsel Karl E. Bakke.

This survey included a physical examination of the telephone instruments in place at the time, as well as a physical search for listening devices in the most likely places without defacing walls, ceilings, and furniture.

No evidence of eavesdropping equipment or tampering was detected at the time of this survey.

Sincerely yours,

C. M. Kelley

Telephone Security Check

Pursuant to a request by Congressman Ogden R. Reid, (D) New York, on 7/31/73 a security survey was completed of the Congressman's office suite in the Cannon House Office Building, and his residence at 2901 Garfield Terrace, NW, Washington, D. C.

This survey included both electronic and physical searches of the telephones in place in the office and residence at that time, as well as a check of all other appearances of the telephone service outside the office suite and residence. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture.

No evidence of eavesdropping devices or tampering was observed at the time of this survey.

TELEPHONE SECURITY
ATTORNEY GENERAL'S
RESIDENCE, McLEAN, VA.

Special Agents of the FBI conducted a telephone security survey at the Attorney General's residence on 8/21/73. In connection with this it is felt that the unpublished telephone number at the residence should be changed. This would have the effect of greatly reducing nuisance calls. In addition, arrangements can be made with the telephone company to have all calls received on the old telephone number referred to the Attorney General's office.

If you so desire, this can be handled by the FBI.

On 8/21/73 an oral request was made by the Attorney General through Mr. Wynn H. Joy, Section Chief Special Services, Department of Justice, for a telephone security survey of his residence in McLean, Virginia.

Pursuant to that request Laboratory personnel completed this survey at his residence on the same date. This included a complete physical inspection of all telephone service and equipment in the residence, as well as all appearances of the telephone service between the residence and the central office of the telephone company. In addition, all equipment on telephone company premises associated with the service was inspected.

No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Mr. Joy of the Department of Justice was advised of the results of this survey.

no

In connection with above and as background, this security survey was predicated on a request by the Attorney General, who has recently been receiving a large number of nuisance calls on his unpublished telephone number at his residence. At the time this survey was conducted, officials of the telephone company suggested that these calls could be reduced by changing the unpublished telephone number and recommended that this be done. In addition, they advised all calls received on the old telephone number could be referred to the Attorney General's office.

Memorandum R. A. Miller to Mr. White 8/22/73, advised that this security survey had been completed and that Mr. Joy of the Department of Justice had been advised of the results, who then advised the Attorney General.

On 8/22/73, Laboratory Supervisor Stevens was in contact with Mr. Richard E. Mastrangelo, Associate Deputy Attorney General in the Department of Justice, who requested a memorandum setting forth any recommendations concerning the security of the telephone service at the Attorney General's residence. In addition, he advised all calls to the old telephone could be referred to the Attorney General's office.

Attached is a memorandum to Associate Deputy Attorney General Mastrangelo.

RECOMMENDATION:

That the attached memorandum be approved for transmittal to Associate Deputy Attorney General Mastrangelo.

FROM : R. A. Miller *RAM*

SUBJECT: SECURITY SURVEY,
ATTORNEY GENERAL'S OFFICE,
DEPARTMENT OF JUSTICE BUILDING,
WASHINGTON, D. C.

See
On 8/28/73 Laboratory personnel completed a security survey of the Attorney General's office in the Department of Justice Building. This included a complete physical inspection of all telephone instruments in place at that time, as well as a search for listening devices in the most likely places without defacing ceilings, walls, or furniture.

No evidence of eavesdropping devices or tampering was observed at the time of this survey. *gm*

Mr. Joy of the Department of Justice was advised of the results of this survey.

RECOMMENDATION:

For information.

John J. Sirica

Pursuant to an oral request by the Attorney General to the Director, arrangements were made through Mr. Wynn H. Joy, Chief of Special Services, Department of Justice, to conduct a security survey for Judge John J. Sirica at the U. S. District Court House, Washington, D. C. On 8/18/73 a security survey was completed of the Judge's chambers, adjacent office space, the jury room adjoining courtroom #2, and a special grand jury room. *CX*

This survey included both electronic and physical searches of the telephones in place in the offices at that time. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture.

Judge Sirica was present at the conclusion of this work and inquired as to results of the survey. He was advised that the survey had disclosed no evidence of eavesdropping devices or tampering with his telephones.

RECOMMENDATION:

The above is for information. In addition, the Director may wish to advise the Attorney General of the results of this survey completed 8/18/73.

Mrs. Hogan _____

Pursuant to a request from Mr. W. H. Joy, Chief, General Services, Department of Justice, relayed through Assistant Director Walters, a security survey was made on May 29 and 30, 1973, of the above premises and the following recommendations are set forth.

I. Security Officer

There should be a security officer employed who will have complete authority and responsibility for security of the premises and the enforcement of security regulations. This security officer should also be responsible for the key control, lock maintenance and for the setting up and changing of combination locks.

II. Guard Force

A 24-hour guard should be maintained in the office space.

III. Floor Plan I

A partition with a single steel door should be erected at point A and a partition with double steel doors should be erected at point B. These doors should be dead-bolted from the inside at the top and bottom using slide bolts of good quality. They should be further secured by steel bars on the inside.

The doors at points A and B should only be used for moving in furniture, cabinets and other equipment. They should be kept bolted at all other times. These doors should also be alarmed to prevent forcible and surreptitious entry attempts. Closed circuit television cameras should be installed within the protected area to monitor the elevator lobby.

Memorandum to Mr. Conrad
Security of Premises
Ninth Floor
1425 K Street, Northwest
Washington, D. C.

O.K. A doorway should be cut into the wall at point C. This doorway will be used at all times by employees and visitors to the premises. The west wall of this room (H) should be moved back to enlarge the entrance room. This room will be occupied by the guard and will also serve as a waiting room for visitors. The doorway at point D should be walled up. Entrance to this room may be gained by cutting a door into the wall E or the wall F.

O.K. The fire door, point G, leading to the stairwell should be secured by a sliding dead bolt mounted on the inside surface.

O.K. The lock to the mechanical room, point J, should be changed and the key to this room maintained by the guard or security officer.

IV. Windows

O.K. The windows in all rooms should be fully curtained with material sufficiently heavy to prevent the observation of activities and to prevent the clandestine reading of material in these rooms from other buildings, and also prevent interception of audio by highly sophisticated techniques.

V. Locks and Keys

O.K. All doors should be secured with keyed locks.

The locks presently installed on the doors are of Schlage manufacture. The lock plugs should be removed from these doorknobs and replaced with Medeco cylinder inserts.

Each lock to each room should be set up to its own individual key.

O.K. All locks should be master keyed to permit security inspection of the premises by the guard or security force.

O.K. All keys are to be stored in a tel-key cabinet maintained by the security or guard force. They are to be charged out as needed and charged back in at the end of the day.

(CONTINUED - OVER)

Memorandum to Mr. Conrad
Security of Premises
Ninth Floor
1425 K Street, Northwest
Washington, D. C.

VI. Admittance to Premises

OK Entrance through the main door should be made only upon showing of credentials to the guard monitoring a closed circuit television camera mounted outside the door. This door should be electrically controlled from the guard desk. Upon entering the premises, each employee will be given a badge. This badge is to be worn by that employee while in the working area. These badges are to be checked in when the employee leaves the premises at any time. Such badges will also be furnished visitors, appropriately marked "VISITOR" and different in color from employee badges.

VII. File Room - Floor Plan II

OK The door at point K should be sealed off. A steel or vault type door having a Sargent and Greenleaf manipulation proof type lock or similar type lock should be erected at point L. This door should be fitted into a steel frame.

OK A file clerk having complete control of the files should be employed to charge out and charge in all files. The combination to this room should be in the sole care and custody of the file clerk and security officer.

In view of the security afforded the file room, the file cabinets need only be equipped with key type locks.

Each office should have a four-drawer Class 5 or Class 6 security type file cabinet for the storage of files, letters and other confidential material.

— All confidential material should be locked up at night in the file room or in the security type file cabinets.

VIII. Rooms and Halls Having Common Walls to Grocery Manufacturers of America Space

The common walls are of drywall (gypsum board) construction and are readily subject to audio and physical penetration.

OK It is recommended that soundproofing be installed to prevent audio transmissions into space of Grocery Manufacturers of America, Inc. Barrier to physical penetration will also be necessary to insure complete protection against microphone

(CONTINUED - OVER)

Memorandum to Mr. Conrad
Security of Premises
Ninth Floor
1425 K Street, Northwest
Washington, D. C.

penetration in these walls. In addition an alarm system should be installed to detect physical intrusion.

IX. Areas Above Drop-Ceiling

A space of approximately 18" exists between the drop-ceiling and the concrete floor above and along the common wall areas mentioned above. Access can be gained into premises from space of Grocery Manufacturers of America, Inc., by lifting out acoustical ceiling tiles. This same access route would also facilitate audio penetration.

OK, Critical areas above drop-ceiling should be protected by alarm system. It would be more desirable to install physical barrier, however, this may not be feasible due to construction features of building and possible disruption of heating-air conditioning system.

✓ X. Service Risers

OK, Service risers, represented on floor plan by squares containing an "X" adjacent to solid squares, are located in all exterior rooms. These provide access routes from floors above and below by which audio surveillance devices may be placed into ninth floor areas containing these service risers. Areas which open into ninth floor space should be sealed to prevent use of listening devices.

XI. Telephone Security

OK, Telephone service for the McPherson Building enters by underground cable which terminates in a distribution room near Area G-6 in first level of garage space. Telephone service is distributed from this room by cable to each floor of the building. The cable servicing the ninth floor space terminates in the mechanical room adjacent to the building stairwell. Telephones installed in the ninth floor space are served by cables distributed from this room, which also contains other telephone equipment.

Telephone service may be compromised in either of the above rooms. The room in the garage area is not locked although the door is equipped with a lock. Two alternatives are suggested

(CONTINUED - OVER)

Memorandum to Mr. Conrad
Security of Premises
Ninth Floor
1425 K Street, Northwest
Washington, D. C.

to achieve telephone security in this area, (1) by controlled access to the room, including secure lock and door alarm or (2) by having telephone company supply telephone service cable direct to ninth floor, with no access points in garage terminal room or elsewhere in the building:

D/K
Access to the telephone terminals and equipment in the mechanical room on the ninth floor should be controlled likewise and the key to this room maintained by the security officer.

Mr. Joy advised that, at the present time, the security survey be limited to the ninth floor.

Attached is an airtel dated May 30, 1973, covering preliminary inquiries made by the Washington Field Office, as requested.

For information, the 1425 K Street, Northwest, building is in a high crime area. There have been thefts, attempted burglaries and at least one robbery in the building. Further details in this matter are being furnished by the Washington Field Office by airtel.

ACTION:

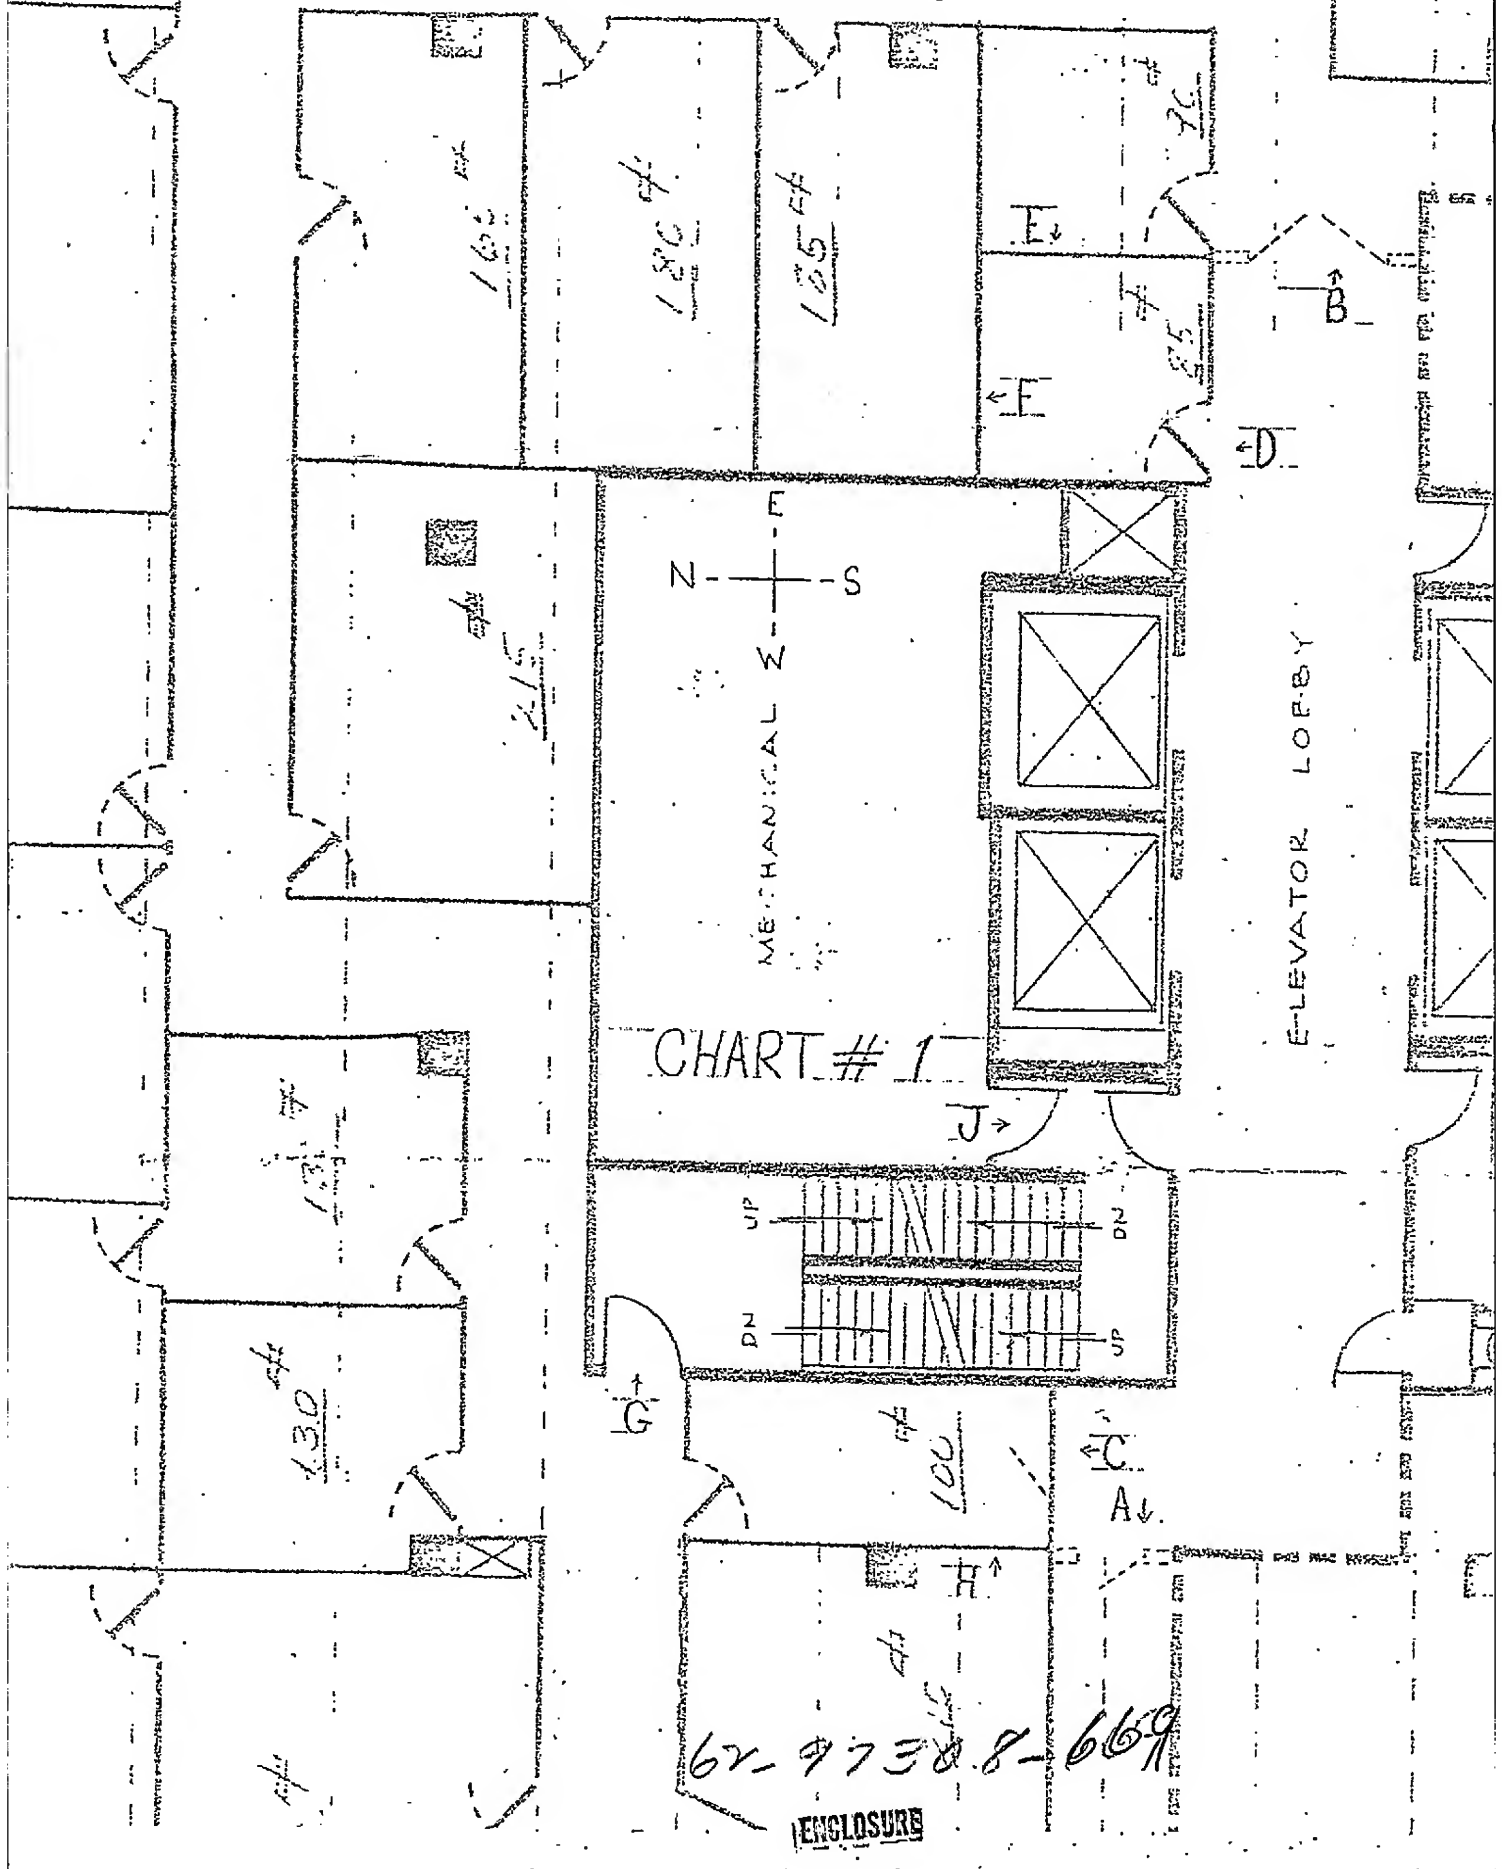

There is attached hereto for approval a suggested preliminary report for delivery to Mr. Joy of the Department.

On 8/28/73, a security survey was completed at the Director's residence. This included an examination of the telephone instruments and an inspection of the premises, without defacing walls or ceilings, to determine the presence of any surreptitious listening devices. An R. F. sweep was also conducted.

In addition, all appearances of the telephone service between the residence and the central office of the telephone company were inspected as well as those appearances in the central office.

No evidence of eavesdropping devices or tampering was observed at the time of this survey.

It is suggested that the Director may wish to continue this security survey on a semiannual basis. If so, the Laboratory will handle all details.

Security Surveys

At the request of the Department of Justice, Laboratory personnel conducted an inspection of the above-mentioned premises, prior to occupancy, and made certain recommendations for maximum security in a report to the Department dated May 31, 1973. It should be noted this group occupies approximately two-thirds of the space on the ninth floor.

The Laboratory has followed the establishment of these security measures to their completion and simultaneously with this work, Laboratory personnel conducted a physical inspection of telephone instruments and an R. F. Survey of areas completed and occupied.

A memorandum R. A. Miller to White, 7/23/73, stated that physical checks were made of all telephone instruments in place at that time and R. F. Surveys had been completed. The results of these security checks revealed no evidence of tampering or surreptitious listening devices, and Mr. Joy of the Department of Justice was advised of these results. In addition, this memorandum pointed out that the Telephone Company had begun a conversion of the existing telephone service to a switchboard system.

Task Force - Ninth Floor
1425 K Street NW
Washington, D. C.

Subsequent to that time, personnel of this group have occupied space on the eighth floor of the building, and additional physical security measures have been instituted by the Department of Justice for this area.

Mr. Joy of the Department of Justice has advised that this is a temporary measure to handle space requirements for additional personnel and that it is the intent of the Department of Justice to acquire the rest of the ninth floor area as permanent quarters for additional personnel sometime in October of this year. In conclusion, he stated he would advise the Bureau in the event any further security surveys were necessary.

OFFICE OF U.S. DISTRICT COURT JUDGE
GERALD B. TJOFLAT
JACKSONVILLE, FLORIDA

Re Jacksonville teletype 11/29/73 requesting a security survey of
offices of Gerald B. Tjoflat, U.S. Courthouse, Jacksonville, Florida.

On 12/3/73 FBI Laboratory personnel completed this survey. The
survey included both electronic and physical searches of telephone instruments
and associated equipment. Physical search for microphones was limited to
the most likely places a listening device could be hidden without defacing
walls, ceilings and furniture. No evidence of eavesdropping devices or
tampering was observed at the time of this survey. *[Signature]*

Judge Tjoflat was advised of the results of this survey by the Jacksonville
Office.

53 DEC 11 1973

Attached Jacksonville teletype dated 11/29/73 advises that United States District Judge Gerald P. Tjoflat, Middle District Of Florida, Jacksonville, has requested that his chambers be checked for electronic eavesdropping devices and that additional checks be made of his chambers until conclusion of the Post Office fraudulent conspiracy matter before him. This matter involves among other defendants [REDACTED] prominent attorney, Glen Turner and Koscot-Interplanatory.

b6
b7C

SAC Jacksonville is requesting authority to make these security checks for Judge Tjoflat as requested by the United States Marshal Service.

FBI Laboratory has been in telephonic contact with United States Marshal Service, Washington, D. C. to verify this request.

It is felt that FBI Laboratory personnel should make initial survey of judge's chambers and at that time confer with United States Marshal Office, Jacksonville requesting the securing of judge's chambers when not occupied. Mr. Reis Cash, Director Of United States Marshal Field Service, Washington, D. C. , advised that he would instruct United States Marshal Service, Jacksonville, to provide full cooperation in this matter.

If above request approved Laboratory will telephonically contact SAC, Jacksonville and make necessary arrangements.

SECURITY
SECURITY CHECK OF CHAMBERS OF U.S. DISTRICT JUDGE GERALD B. TJOFLAT, MIDDLE DISTRICT OF FLORIDA, JACKSONVILLE, FLORIDA. *RA [signature]*

RE JK TELCALL TO BUREAU TODAY.

ON 11/28/73, U.S. DEPUTY MARSHAL JACK HALL, JACKSONVILLE, ADVISED U.S. DISTRICT JUDGE GERALD B. TJOFLAT, MIDDLE DISTRICT OF FLORIDA, JACKSONVILLE, ON 11/28/73 REQUESTED THAT HIS CHAMBERS BE CHECKED FOR ELECTRONIC EAVES DROPPING DEVICES AND THAT ADDITIONAL CHECKS BE MADE OF HIS CHAMBERS EVERY OTHER MONDAY UNTIL THE CONCLUSION OF THE POST OFFICE FRAUD-CONSPIRACY MATTER NOW BEFORE HIM.

THIS MATTER INVOLVES AMONG OTHER DEFENDANTS F. LEE BAILEY, PROMINENT ATTORNEY, [REDACTED] AND KOSCOT-INTERPLANATORY.

HALL ADVISED THE PURPOSE OF HIS VISIT TO THE FBI WAS TO HAVE THE FBI MAKE THE SECURITY CHECKS REQUESTED BY JUDGE TJOFLAT. [REDACTED] WAS ADVISED THAT THE FBI CERTAINLY WANTED TO COOPERATE WITH THE U.S. MARSHAL'S SERVICE IN CONNECTION WITH JUDGE TJOFLAT'S REQUEST, BUT THE MARSHAL'S OFFICE SHOULD
END PAGE ONE

62 DEC 11 1973

PAGE TWO

EXHAUST ANY OTHER SOURCES AVAILABLE TO IT IN HANDLING THIS REQUEST AS THIS IS A VERY SENSITIVE AREA. HALL ADVISED THAT HE FULLY UNDERSTOOD AND HIS VISIT TO THE FBI WAS MADE BECAUSE HE DID NOT KNOW OF ANY OTHER SOURCES CAPABLE OF MAKING THE SECURITY CHECKS.

HE WAS ADVISED THAT IF HIS EFFORTS TO SECURE COMPETENT PERSONNEL TO HANDLE THIS CHECK WERE NEGATIVE, HIS REQUEST FOR FBI ASSISTANCE WOULD BE REFERRED TO FBI HEADQUARTERS FOR CONSIDERATION.

ON 11/29/73 AT 3:50 PM, CHIEF DEPUTY MARSHAL GEORGE PURVIS MIDDLE DISTRICT OF FLORIDA, JACKSONVILLE, TELEPHONICALLY CONTACTED THE JACKSONVILLE OFFICE AND ADVISED HE HAD DISCUSSED JUDGE TJOFLAT'S REQUEST WITH THE OFFICE OF DIRECTOR OF MARSHALS SERVICE IN WASHINGTON D.C., AND HE HAD BEEN INSTRUCTED TO MAKE AN OFFICIAL REQUEST OF FBI, JACKSONVILLE TO HANDLE THE SECURITY CHECK REQUESTED BY JUDGE TJOFLAT.

PURVIS ADVISED THAT THE MARSHALS SERVICE IN JACKSONVILLE

END PAGE TWO

PAGE THREE

HAS NO EQUIPMENT OR TRAINED PERSONNEL TO HANDLE THE JUDGE'S REQUEST. PURVIS WAS ADVISED HIS REQUEST WOULD BE REFERRED TO THE FBI HEADQUARTERS IN WASHINGTON D.C., FOR CONSIDERATION.

PURVIS THEN ADVISED THAT HIS WASHINGTON OFFICE HAD TOLD HIM THAT SHOULD THE LOCAL FBI REFER THIS REQUEST TO FBI HEADQUARTERS, THE DIRECTOR OF MARSHALS SERVICE IN WASHINGTON WOULD BE IN CONTACT WITH FBI HEADQUARTERS CONCERNING THE REQUEST.

JACKSONVILLE HAS NO OBJECTION TO CONDUCTING THESE SECURITY CHECKS REQUESTED BY JUDGE TJOFLAT AS JUDGE TJOFLAT IS A GOOD FRIEND OF THE JACKSONVILLE OFFICE AND WE ENJOY AN EXCELLENT RELATIONSHIP WITH HIM. WE ALSO ENJOY AN EXCELLENT RELATIONSHIP WITH THE U.S. MARSHAL'S OFFICE IN JACKSONVILLE.

BUREAU IS REQUESTED TO ADVISE JACKSONVILLE IF AUTHORITY GRANTED TO MAKE SECURITY CHECKS OF THE CHAMBERS OF U.S. DISTRICT JUDGE TJOFLAT AS REQUESTED BY THE U.S. MARSHAL'S SERVICE.

END

Security Surveys

Honorable Clarence M. Kelley
Director
Federal Bureau of Investigation
Washington, D.C.

Dear Mr. Kelley:

A few days ago I requested the Bureau to examine my Chambers to determine whether any listening devices were present. Last evening, three of your agents from Washington, [redacted] [redacted] Joseph Reames conducted the examination.

My request was no doubt unusual; and I just wanted to take this opportunity to commend the Bureau and these men for the splendid cooperation afforded me.

Sincerely,

Gerald Bard Tjoflat

Honorable Henry M. Jackson
United States Senate
Washington, D. C. 20510

Dear Senator Jackson:

In keeping with your request, Special Agents of the Federal Bureau of Investigation completed a microphone and telephone security survey of your offices in the Old Senate Office Building and the Capitol Building, Rooms 137A, 135 and S-339, and at your residence at 4934 Rockwood Parkway, NW, Washington, D. C. This survey included a physical check of all telephone instruments in place at that time.

No evidence of eavesdropping devices or tampering was detected at the time of this survey.

Sincerely yours,

Clarence M. Kelley
Director

Pursuant to a request by Senator Henry M. Jackson, (D) Washington, on 12/10/73 a security survey was completed at the residence of the Senator at [redacted] and at his offices in the Old Senate Office Building and the Capitol Building, Rooms 137A, 135 and S-339.

This survey included both electronic and physical searches of the telephones in place in the office and residence at that time. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

During the course of this survey Mr. Donohue, an administrative assistant to the Senator, made the unsolicited comment that a request for this same type of survey would probably be made on an irregular basis at approximately one month intervals. This would include only the Senator's office in the Old Senate Office Building and a small office in the Senate side of the Capitol Building.

Attached is a suggested letter to Senator Jackson which advises of the result of this survey.

RECOMMENDATION:

That the attached letter to Senator Jackson reporting the result of this survey be approved.

[] Staff Assistant of the House Subcommittee on Appropriations which handles our budget matters, requested a security survey of the captioned rooms. He made this request of SA D. J. Green of the Administrative Division. The room H 310 is the room in which hearings are conducted by the Subcommittee. The room H 309, which is an adjacent room, recently was assigned for use by the Subcommittee's staff. b6 b7C

In past years the Subcommittee's staff has requested similar surveys just prior to the time the representatives from the Department of Justice, including FBI officials, are scheduled to appear. [] requested that the survey be made on the morning of Wednesday, 2-20-74, if at all possible.

This request was discussed with R. A. Miller, Chief of the Radio Engineering Section of the Laboratory, who advised Laboratory personnel would be available to perform the survey on 2-20-74. The survey will be conducted and you will be advised of the results. b6 b7C

While discussing this request, [] advised that [] has been assigned as a Staff Assistant to the Subcommittee. You will recall [] was recently named the principal Staff Assistant for the Subcommittee when [] a former FBI Agent, retired from the staff. [] will work under [] direction. [] was previously assigned to the Subcommittee on Treasury, Postal Service and General Government.

In December, 1972, Congressman George H. Mahon, the Chairman of the House Committee on Appropriations, requested the Bureau to conduct an investigation of Osthaus, who was then being considered for a staff appointment with the Appropriations Committee. Our investigation was favorable and results were furnished to Congressman Mahon by letter dated 1-8-73 (copy attached).

By letter to the Director dated 2/26/74, Mr. William H. Randolph, Deputy Director of Investigations and Security, Department of Commerce, requested that a security survey be conducted in the office of subject official in the Department of Commerce. This was approved.

On 2/27/74, the above-requested survey was completed. This survey included a physical examination of the telephone instruments and associated equipment in place at that time, and a physical search for microphones, which was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture. In addition, a radio frequency (rf) sweep was conducted within the confines of the office. No evidence of eavesdropping devices or tampering was found at the time of this survey.

Attached is a suggested letter to Mr. Randolph which advises of the result of this survey.

RECOMMENDATION:

It is recommended that the attached letter to Mr. Randolph reporting the result of this survey be approved.

TO : DIRECTOR, FBI

DATE: 2/27/74

FROM : SAC, WFO

SUBJECT: CHIEF JUSTICE WARREN E. BURGER
UNITED STATES SUPREME COURT
REQUEST FOR PHYSICAL SECURITY SURVEYS

ST
plus

On 2/26/74, SA CHARLES W. COOKE, WFO's liaison representative at the United States Supreme Court, had occasion to meet with Chief Justice BURGER at which time the latter expressed concern, in the light of recent kidnappings, with the security arrangements at the United States Supreme Court and, also, with regard to the movement of individual Justices.

Chief Justice BURGER reminisced warmly on his relationship with former Director HOOVER and indicated that shortly after assuming his responsibilities at the Supreme Court, Director HOOVER had acceded to his request for a survey of the adequacy of physical security at the Court. He then requested that his desire that a similar survey be conducted be relayed to Director KELLEY. He was informed that his request would be referred to the Director.

Besides the Supreme Court police, the United States Marshal's Service has security responsibility at the Supreme Court premises. They daily search the main chamber for suspicious packages and perform other security checks. If the Director acquiesces in the Chief Justice's request, there would appear a need for some delicacy in presenting the matter to Chief United States Marshal WAYNE COLBURN so that he would not feel the Bureau's actions were intrusive of his area of responsibility.

REC-45 62-97308-6807

The Bureau is requested either to respond directly to the Chief Justice or advise WFO of action desired.

Security surveys of the telephone lines at residences of the Director, Associate Director, Deputy Associate Directors, and Assistant Directors have been carried out by the Radio Engineering Section since 1952. Security surveys are done in three phases: (1) on a quarterly basis all access points of the telephone line between the central office and the residence are examined (2) on a semiannual basis all central office terminals of the telephone service are examined on telephone company premises and outside lines are again checked and (3) on an annual basis all telephone instruments in the residences of persons included in this survey are examined and all outside line appearances are rechecked, except that this is performed semiannually for the Director.

Policy changes within the telephone company now require their personnel to accompany Bureau personnel on any security survey of this type, excluding checking the telephone service in the residence. This change necessitates that specific appointments be made with telephone company personnel which, in turn, results in substantially increased time spent by Bureau personnel in performing these security surveys. In addition, as a result of new policy, the telephone company is now quite reluctant to permit entry into their central office by Bureau personnel.

At the present time this security survey program requires approximately 104 man days of two Special Agent Supervisors of the Laboratory. It is felt with the increase in security on the part of the telephone company and the technical complexity of the modern day telephone system that a change should be instituted in this security program. The most vulnerable and accessible location for any type of compromise of an individual's telephone service still exists at the residence where the telephone line is accessible and can be identified. It would appear that this security survey program would be most productive for time expended if concentrated at residences.

Memorandum to Mr. White
RE: SECURITY SURVEYS - TELEPHONE
SERVICE AT RESIDENCES OF
BUREAU OFFICIALS

It is felt that telephone terminals at the residences should be physically checked every quarter and the telephone instruments and service within the residence on an annual basis. Verification of the security of telephone service in the central office of the telephone company by responsible telephone company personnel should be included in the annual check. This check should continue to be made on semiannual basis for the Director.

In addition to the Director and Associate Director, it was decided in Mr. Callahan's conference on 3/11/74, that the security surveys should be limited to Deputy Associate Directors E. S. Miller and T. J. Jenkins and Assistant Directors W. V. Cleveland, R. R. Franck, R. E. Gebhardt and W. R. Wannall.

RECOMMENDATION:

It is recommended that the revised Security Survey Program, as set forth above, be approved.

SAC, WFO (66-3491)

SUBJECT:

CHIEF JUSTICE WARREN E. BURGER
UNITED STATES SUPREME COURT
REQUEST FOR PHYSICAL SECURITY SURVEYS

ST
plus
Remylet 2/27/74, forwarding an oral request from Chief Justice BURGER that the Bureau consider conducting a security survey at the Supreme Court Building. Further reference is made to later telephonic advice from the Bureau that the Director had agreed to perform this service and instructing that I make arrangements for a meeting between Bureau officials and the Chief Justice.

Numerous attempts have been made by WFO's Supreme Court liaison Agent to set up such a conference to no avail.

Attached is a copy of a memorandum from SA CHARLES W. COOKE to me dated 4/3/74, wherein it is reflected that [REDACTED] Administrative Assistant to the Chief Justice, advised that, in the absence of hearing further from the Chief Justice, no further action need be taken by the Bureau.

b6
b7C

In view of the foregoing, WFO will make no further attempt to arrange a conference with the Chief Justice for the purpose previously stated.

UNITED STATES GOVERNMENT

Memorandum

TO : SAC, WFO (66-3491)

DATE: 4/3/74

FROM : SA CHARLES W. COOKE

SUBJECT: CHIEF JUSTICE WARREN E. BURGER
UNITED STATES SUPREME COURT
REQUEST FOR PHYSICAL SECURITY

By way of background Chief Justice BURGER, United States Supreme Court, personally requested that the FBI conduct a physical security check at the Court. The Bureau granted the request, and asked that arrangements be made to meet with the Chief Justice to discuss the matter.

Administrative Assistant to the Chief Justice, advised SA COOKE, on 4/2/74, that due to pressures of the Court, the Chief Justice would not be able to meet with representatives of the FBI.

b6
b7c

In view of the unavailability of the Chief Justice, CANNON, on 4/3/74, was requested to have a letter sent to the Director defining the physical areas to be surveyed, the desired scope of the survey and the specific apprehensions of the Chief Justice regarding security at the Court, if any.

CANNON stated that in his opinion the Secret Service might be the more appropriate agency to conduct the survey in view of the fact that physical protection of persons and property was their primary reason for being. He stated he intended exploring having Secret Service do the survey.

CANNON stated, "Under the circumstances the FBI should forget the original request, and should not conduct the survey unless a written communication is received from the Chief Justice.

In light of the above, it is recommended no further action be taken by the Bureau, unless a communication is received from the Chief Justice.

SECURITY SURVEY
INTELLIGENCE UNIT
ORGANIZED CRIME AND
RACKETEERING SECTION
CRIMINAL DIVISION
DEPARTMENT OF JUSTICE

In keeping with your request of April 17, 1974, Special Agents of the Federal Bureau of Investigation completed a microphone and telephone security survey of Intelligence Unit, Organized Crime and Racketeering Section, Criminal Division, Department of Justice. This survey included a physical check of all telephone instruments in place at that time.

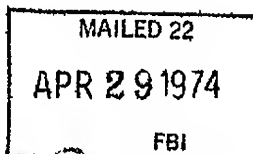

No evidence of eavesdropping devices or tampering was detected at the time of this survey.

Pursuant to a request by Glen E. Pommerening, Acting Assistant Attorney General for Administration, on 4/24/74 a security survey was completed in the above-captioned space.

This survey included both electronic and physical searches of the telephones in place at that time. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture. No evidence of eavesdropping devices or tampering was observed at the time of this survey.

Attached is a memorandum to Glen E. Pommerening which advises of the result of this survey. *[Signature]*

RECOMMENDATION:

It is recommended that the attached memorandum be forwarded to Glen E. Pommerening reporting the results of this survey.

Federal Bureau of Investigation

DATE: APR 17 1974

FROM : *[Signature]* Glen E. Pommerening, Acting
Assistant Attorney General
for Administration

SUBJECT: *[X]* Detection of Surreptitious Listening
Devices

Ja

This is to request that FBI personnel conduct an inspection for the detection of surreptitious listening devices in the Intelligence Unit, Organized Crime and Racketeering Section, Criminal Division, Room 2730 in the Main Justice building. The subject inspection would require a visual check and electronic sweep of approximately 10 office spaces, after normal working hours. The Chief of this unit, Mr. Gerald Shur (code 187-3684) has found his door unlocked at morning hours without explanation. Some of the most sensitive material in the Department is located in his files and we feel this precautionary measure is warranted.

Oran H. Waterman, Director of the Department Security Staff, Office of Management and Finance or (code 187-2341) may be contacted for any further information.

Security Survey

By memorandum to the Director dated 4/17/74 from Glen E. Pommerening, Acting Assistant Attorney General for Administration, a request has been made for Bureau personnel to conduct a security survey for the above-captioned organization in the Criminal Division of the Department of Justice.

Bureau personnel have conducted security surveys of this type for the Department of Justice in the past, the last survey having been made in the Attorney General's Office in August, 1973.

It is suggested that the Bureau may wish to comply with the present request.

ACTION:

If approved, the Laboratory will make the necessary arrangements with Oran H. Waterman, Director of the Department of Justice Security Staff.

In connection with the above, the Boston Office by letter dated 5/6/74 has requested that the Laboratory furnish a "Sweep Team" to conduct a security survey for clandestine listening devices in the Boston Office, as well as for the departmental strike force, Boston, Massachusetts.

The Boston Office has acquired additional space in their present office and a telephone placement has changed because of this expansion. As a result, the Boston Office desires that this additional space be checked for listening devices and the telephone equipment be checked also. The Boston Office has received an official oral request from [redacted] Attorney in charge of the Department of Justice Strike Force in Boston, for a sweep of their office space and telephone instruments. b6
b7C

As you know, the Laboratory has recently conducted a security survey for the Newark Office as well as for the Organized Crime Section, Intelligence Unit in the Department of Justice Building.

It is felt this survey, which will include an RF sweep and a physical search of the space and telephone instruments will necessitate three days to complete. The Laboratory has been inttelephonic contact with the Boston Office and they have been advised to provide personnel to assist the Laboratory in this survey.

RECOMMENDATION:

It is recommended that the Laboratory be authorized to provide three Special Agent Supervisors to conduct a security survey of the Boston Office as well as the office of the Department of Justice Strike Force in that city. If the above is approved, the Laboratory will make the necessary arrangements for travel to Boston.

SUBJECT: *Surveys*
SECURITY OF OFFICE SPACE
BOSTON DIVISION

Re Boston letter to the Bureau dated 4/23/74 and
Bureau telephone call to Boston, 4/29/74.

It is requested that the Bureau furnish a "sweep
team" to make a space and telephone line examination for
clandestine listening devices in the Boston Division.

The Boston Division which formerly occupied only
the ninth floor of the Federal Building, Boston, Mass.,
has expanded to include most of the tenth floor of the
same building. During the expansion, the 740E switching
equipment and PBX console was changed as were all of the
instruments in the office.

The U.S. Department of Justice Strike Force at
Boston, Mass. has formerly requested that a sweep be made
of the space occupied by them and of the telephone lines
utilized by that Department. It is noted that the Strike
Force in Boston is primarily concerned with the prose-
cution of organized crime cases as presented by the FBI and
therefore, an examination of the Department space would be
within the best interests of the Bureau. It is requested
that at the time the Bureau sweep team is in the Boston
Division, that a sweep of the Strike Force be made.

Telephone Security check

[redacted] for the House Subcommittee on Appropriations, which handles our budget matters, requested a security survey of the captioned rooms which house the hearing room and the staff office. He made this request of SA [redacted] of the Administrative Division.

b6
b7C

[redacted] requested that we make this survey early on the morning of 8/22 (Thursday) so that the survey can be completed prior to the appearance of Secretary of State Kissinger at a hearing scheduled for 10 a.m. In past years the Subcommittee staff has requested similar surveys and we have complied with these requests.

The request was discussed with Mr. Callahan who instructed that arrangements be made with the Laboratory to conduct the survey as requested. Inspector Cochran of the Laboratory said the survey could be handled beginning at approximately 7 a.m. on the morning of 8/22. You will be advised of the results.

Pursuant to arrangements made by Mr. Green [redacted] the House Subcommittee on Appropriations, Laboratory personnel conducted a security survey of Rooms H-309 and H-310 at the Capitol Building on 8/22/74.

This survey included a physical search of all telephone instruments in the rooms at that time. A physical search for microphones was limited to the most likely places a listening device could be hidden without defacing walls, ceilings, and furniture. An electronic search for microphones was also conducted.

No evidence of eavesdropping devices or tampering was observed during this survey.

The results of this survey were made known to Mr. Green on the same date, who advised [redacted]

RECOMMENDATION:

None. For information.

SECURITY SURVEY
NEW OFFICE SPACE
OKLAHOMA CITY DIVISION

Bourlet 9/3/74 requesting security survey of new office space.

The Laboratory will furnish two men and equipment for a security survey which will take approximately three days.

This survey will be coordinated with Oklahoma City Division and will be during the week of 9/30/74 to 10/4/74.

NOTE:

The Laboratory has in the past conducted security surveys for field divisions when requested. The field does not possess the specialized equipment or expertise to conduct a comprehensive survey of new office space. It is felt that requested survey is justified for Oklahoma City. Laboratory personnel will travel to Oklahoma City the week of 9/30/74 to handle this request.

Memorandum

TO : DIRECTOR, FBI
ATTENTION: FBI LABORATORY
RADIO ENGINEERING SECTION

FROM : SAC, OKLAHOMA CITY (66-2734)

SUBJECT: *Security Survey*
OFFICE SPACE
OKLAHOMA CITY DIVISION

DATE: 9/3/74

Re Oklahoma City letter to Bureau 6/20/74, which requested the services of the Radio Engineering Section for security checks of Oklahoma City's new office space.

The new office space at the 50 Penn Place Building, Northwest 50th Street and North Pennsylvania Avenue, Oklahoma City, Oklahoma, will be occupied by the Oklahoma City Office beginning 9/13/74.

It is requested that on or after 9/23/74, the Radio Engineering Section conduct RF sweeps and analysis of telephone lines in this new office space, utilizing equipment and expertise of the Radio Engineering Section.
